

ZAFER principles are endurance, aesthetics, cosmetics and functionality at a really matchless price. These principles are created by the new **ZAFER Over&Under** Shotgun.

Superior features of a **ZAFER Over&Under** are stocks made of supreme walnut wood and high value cosmetics. **ZAFER** incorporates features that enhance endurance and performance. The ease of handling makes this wonder your frequent partner at hunting.

The accepted theory is "As the quality goes to high the price increases". However an **ZAFER Over&Under** disproves this theory. Matchless quality at a really matchless price can be obtained only in a **ZAFER Over&Under** Shotgun.

Supplied in competitive 12 gauge model market, nice floral engraving on every side of the steel receiver and trigger guard makes this gun an alpha. The trigger is gold plated as a result of the importance of cosmetics in **ZAFER** philosophy.

For a higher strength the barrels are drilled and later internally smoothed through a special reaming process, polished and hard chromed to resist corrosion, residual wear and tear from the use of steel shot. Finally the barrels are black chrome plated that has 10 times stronger corrosion resistance comparing to bluing. The matte, anti-glare finished barrels feature a thin side rib that allows the **ZAFER Over&Under** rapid cooling and lighter handling.

The super resistant matte electroless nickel finish on all metal parts including receiver, top lever, trigger guard, trigger plate, hinges is the real long time warranty for **ZAFER Over&Under** owners and **ZAFER**. The finish enables long life and protection against scratches.

BRAND	MODEL	GAUGE	CHAMBER (mm/in)	RIB (mm)	CHOKES	BARREL LENGTH	WEIGHT (kg/lb)	STOCKS	RECEIVER
ZAFER	O 1612	12 cal.	76 / 3"	7x7	MC5	71cm / 28"	3.5 / 7.7	First Class Turkish Walnut Stocks	Floral Engraving #1 on ENF steel receiver

As to stocks, absolutely they are the unique proof why **ZAFER Over&Under** has a really matchless price. In **ZAFER** engineering the starting rule for the excellent quality is the selection of the raw material. Additionally to the strict selection of Turkish Walnut Wood, staining is done with the best quality chemicals. As a result of this special attention, the beauty of the **ZAFER Over&Under** comes from the stocks.

STOCK	mm/in
Length of Pull	360 / 14.20
Drop at Comb	40 / 1.57
Drop at Heel	62 / 2.44

The dimensions are customized for hunting to achieve super accuracy on target by means of fastest aiming.

The contribution to the gun balance of the Turkish Walnut stocks is one of the main duties of **ZAFER** designer as maximum handling and ease of swing can be guaranteed while each component is perfectly proportioned with the other and balanced in weight. **ZAFER Over&Under** is an "Unlimited Shooting Pleasure" to take on the most formidable game not only on the strict testing conditions of **ZAFER Arms Company**.
